

Introducing CMP Outage Alerts

We know you are counting on us to keep the power on when and where you need it. And, if the power does go out, we will work to restore your power safely and quickly.

And now, we will keep you informed with **CMP Outage Alerts**.

When your smart meter detects an outage, it will trigger an outage alert letting you know when we expect restoration to be completed. That's information you can use to plan! Sign up for Outage Alerts today at cmpco.com

And, while you are there, check out Outage Central. You'll find outage information and outage maps designed to keep you informed during an outage. We've harnessed the power of the smart meters to offer innovative solutions for you.

learn more about outage alerts on our website at cmpco.com

Go to cmpco.com

Log in to your account

Choose to receive alerts by

text message

email

voice

or all three!

You'll receive an alert of a power outage for your location with an **estimated time that we'll have the power back on.**

If the estimated restoration time changes, **we'll send you an update for your location.**

We'll restore service as quickly and safely as possible and you'll receive an alert when your power **has been restored at your location!**

CMP has new outage alerts!

That's just what I need!
How do I sign up?

Just go to cmpco.com and sign up. It's that easy!

You can receive alerts by text message, email, voice, or all 3!

Key Features:

- Sign up for **Outage Alerts** for your home, business, camp or any of your locations. You will get information specific to your location.
- Receive alerts how you want: text message, email, voice message, or all three.
- Add as many phone numbers and email addresses as you want, so everyone can stay informed.
- Receive alerts for friends and family with their permission.
- Free and secure.
